Total Credit Hours for Associate of Science Degree **69****

Total Credit Hours Taken:	132
Total Credit Hours Applied to B.S. Degree	125

*Student must take 3 credits from two of Barton's Humanities areas: ARTS 1200, MUSI 1002, LITR 1210, LITR 1212, PHIL 1602, HIST 1408, HIST 1410.
**69 hours are required for an Associate of Science degree in Dietary Management. 62 credits will transfer to K-State's bachelor's degree in Dietetics.
✓ Courses approved as substitutes for BIOL 340 only for dietetics program.
▼ Grade of "C" or better required.

This degree map is shown as an illustration and example that has been reviewed and accepted by the university and community college. Many other combinations of courses may be possible, so students should contact a K-State or community college advisor before committing to a particular transfer program.

Note: Kansas Board of Regents requirements have been incorporated into this degree plan, including the following rules governing bachelor's degrees:
a. A bachelor's degree must include at least 124 credit hours;
b. It must have at least 60 credit hours earned from an institution where the majority of degrees granted are at the bachelor's degree level or higher;
c. It must include at least 45 credit hours at the junior level (numbered 300) or higher;
d. It must include at least 45 credit hours of general education in defined areas.

Kansas State University will accept up to one-half of the credit hours from the community college toward the bachelor's degree.

◆ Complete both courses through K-State to meet the University's General Education requirements. Consult with your distance dietetics advisor for more information.

● K-State does not offer this class via distance, but it can be obtained through other institutions. Consult with your distance dietetics advisor.

Dietetics **Didactic** Distance Education Program

Barton County-Kansas State University 2 + 2 Partnership

Kansas State University and Barton County Community College offer a 2 + 2 program that allows students to earn an Associate of Science degree with an emphasis in Dietary Management at Barton and transfer the majority of those credits to K-State towards the completion of a Bachelor of Science degree in Dietetics. This degree map is an illustration, which is subject to change.

Dietetics Didactic Program Option through Distance Education

This program meets the academic requirements set forth by the American Dietetic Association and qualifies the student to apply for post-baccalaureate supervised practice programs. The student must obtain supervised practice experience after graduation in order to qualify to take the national examination to become a registered dietitian.

A Career in Dietetics

Registered Dietitians (RDs) are professionals who translate the science of food and nutrition to enhance the well-being of individuals and groups. Many dietitians work in health care facilities such as hospitals and extended care facilities. Dietitians also may be found working in public health settings, such as Women, Infants, and Children (WIC) programs; food stamp programs; programs for the elderly; or non-commercial and commercial foodservice operations. The broad range of opportunities for practice within dietetics provides RDs with maximum flexibility as they move through their professional careers. With growing public interest in nutrition and wellness, the demand for dietitians continues to exceed supply. Publications from the Bureau of Labor Statistics to popular magazines, such as *Cosmopolitan*, cite dietetics as a field of opportunity in the coming decade. Dietetics offers the opportunity to combine an interest in food and nutrition with the privilege of meeting the needs of individuals or groups in wellness, illness, and all other stages of the life cycle. RDs are the only health professionals trained specifically in foods and nutrition and thus are viewed as "nutrition experts."

How to Get Started

Contact the K-State at Barton representative at 620-786-1188 or the Dietetics Program Coordinator.

Dietetics at K-State
