# Hazardous Materials Management and Technology Management

## Your Degree Option

K-State at Salina offers a Bachelor of Science degree in Technology Management through distance education. This degree completion program is designed for students who have completed the Hazardous Materials Management program at Barton Community College. The Technology Management degree provides a solid understanding of the fundamental areas in management: finance, accounting, business, and marketing. The curriculum is designed to prepare the student for the diverse environment of the business world as it relates to Hazardous Materials Management. By combining a technical area of concentration with advanced business studies, you can be a professional who has the practical and leadership skills to move forward in business.

## Your Career

Graduates of the program develop an overall understanding of the environmental technology field, including occupational safety and health, and hazardous materials management. Graduates from the program have obtained employment in government and the private sector as corporate/company safety managers, training coordinators, shipping managers, instructors, Hazmat response team members, and loss prevention managers.

## Get started!

The degree map on the reverse page will show you a listing of classes you need to take from Barton Community College and K-State to complete the Hazardous Materials Management and Technology Management 2+2. This degree map has been reviewed and accepted by both schools as an illustration, which is subject to change. Many other combinations of courses may be possible, so students should contact a K-State representative or their community college advisor before committing to a particular transfer program.

To get started, contact the K-State 2+2 representative by calling 620-786-1188 or e-mail [bartondce@k-state.edu](mailto:bartondce@k-state.edu).
